# GLOBAL HOPE

Global Hope is the University's international education programme that gives you the opportunity to engage in projects addressing social justice and education in countries such as India, Sri Lanka, Uganda and Brazil. The project welcomes students from all subject areas and backgrounds to get involved in this truly life-changing opportunity.

Each day working with the young children in the village was so rewarding and a lot easier than I thought it would be. In the evening we got to see local temples and neighbouring towns and at the weekend we took some trips to a local safari.

Student, Sri Lanka 2018.

I went out on Global Hope thinking I wouldn't be challenged that much but mentally, physically and emotionally I was. However, I wouldn't change anything about my experience and I am so glad I was challenged in different ways.

Student, Uganda 2018.

# STUDY OVERSEAS

Studying overseas as part of your undergraduate degree is a once in a lifetime opportunity and a great way to enhance your studies. For most of our degrees, you have the option to spend a semester or year abroad at one of our partner universities, as part of our Outgoing Exchange Programme.

I never thought I would say I learnt a new language in the space of three months. Whilst I am definitely not fluent in Dutch I have been able to have conversations, take lessons, order at restaurants and generally live life in another language.

Exchange Student to  
VIVES, Belgium

Research from around the world also shows that studying or volunteering away from your home university can enhance your career prospects after graduation. Whilst overseas, you can gain a range of professional skills that you may not have the opportunity to experience again. You will be able to draw on your experiences and include them on your CV, which will help you stand out from your peers when it comes to applying for jobs or higher degrees.

I had the most amazing time, made so many memories and feel like I have learnt so much. I would do it all over again in a heartbeat and am so thankful to both international departments for helping me make it happen!

A man with long brown hair and a beard, wearing a blue and purple plaid shirt, stands with his arms crossed in an art studio. Behind him are various art projects, including a large dark painting of a figure and a red wall. To his right, another man is partially visible, working on a blue artwork. The studio is filled with art supplies, papers, and other artists' work.

Hope is great at hosting outside events and artist talks, which give you the opportunity to meet those working in the industry.

# OUR DEGREES

The following section details the different undergraduate degree courses that can be studied at Hope, and prospective career paths. More detailed information for each of these can be found on our website:

[www.hope.ac.uk/undergraduate/undergraduatecourses](http://www.hope.ac.uk/undergraduate/undergraduatecourses)

We offer a wide range of degrees, from Undergraduate level to Postgraduate Taught Masters and Postgraduate Research degrees, as well as a number of Continuing Professional Development courses.

## SINGLE HONOURS DEGREES

If you choose to study a Single Honours degree, you are choosing to study one main subject area. Single Honours degrees are a good choice if you have a particular subject area you want to study in more depth.

## COMBINED HONOURS DEGREES

If you choose to study a Combined Honours degree, you are choosing to study two subject areas equally. Combined Honours degrees are a good choice if you are interested in more than one subject area.

## YEAR IN INDUSTRY DEGREES

Some of our degrees can be studied with a year spent in industry. This placement year is additional to your degree and gives you the opportunity to gain valuable workplace experience before you graduate.

## PART-TIME STUDY

Most of Liverpool Hope's Undergraduate programmes are available for study on a part-time basis, with the exception of the degree in Social Work and the Primary Education with Qualified Teacher Status (QTS) course.

Part-time study normally doubles an Honours degree programme to twice its full-time duration i.e. six years. Most part-time students opt to study for a Combined Honours degree programme and take their two majors in alternate years.

**For details of how to apply for part-time study, visit:**

[www.hope.ac.uk/undergraduate/howtoapply](http://www.hope.ac.uk/undergraduate/howtoapply)

# DEGREES WITH FOUNDATION YEAR

**The Degree with Foundation Year is a great opportunity if you have the ability and enthusiasm to study for a degree, but do not yet have the qualifications required to enter directly onto a degree programme. Successful completion of the Foundation Year will enable you to progress into the first year (Level C) of your chosen honours degree. If you are a full time UK student, you will qualify for student financial support for the full duration of your course (subject to relevant criteria).**

A significant part of our Degree with Foundation Year focuses upon core skills such as academic writing for Higher Education, becoming an independent learner, structuring academic work, critical thinking, time management and note taking. The Foundation Year is a full-time course and forms the first year of a four-year degree. You will be a student of the University and have access to all the standard support systems and resources that any degree student would be able to access.

**Keep an eye out for the F in the A – Z Course List to see degrees that offer Foundation Years.**

You can access the full list of Degrees with Foundation Years at:

**[www.hope.ac.uk/undergraduate/degreewithfoundationyear/degreewithfoundationyeara-z](http://www.hope.ac.uk/undergraduate/degreewithfoundationyear/degreewithfoundationyeara-z)**

All courses can be undertaken with a Foundation Year, with the exception of: Sports Rehabilitation, Art & Design History, Primary Education (5-11), Early Education Primary (3-7) and Social Work.
